

Weatherization helps New Yorkers save energy with healthy, energy efficient housing, and strengthens our workforce with training and job creation.

Wednesday, October 19, 2011

**AEA Energy Management
Training Center
105 Bruckner Blvd, Bronx, NY**

*At the foot of the Bruckner Blvd exit
off the Willis Ave Bridge*

National Weatherization Day Events

2:00 PM - 6:00 PM

- Speak with building owners whose properties have undergone weatherization upgrades
- Learn about special projects to serve New York's most vulnerable residents
- Watch our documentary of innovative energy-saving projects delivered by New York's Weatherization subgrantees
- Meet directors of New York metro area Weatherization providers
- See our new rooftop solar and green roof installations and fully functional boiler lab
- Meet our experienced trainers and learn how we combine hands-on installer courses and high-definition video technology to teach building science and help students at all levels build new skills for green jobs
- Meet some of the newest members of New York's Weatherization workforce and learn about the programs and partners who help them prepare for jobs in the green economy

Green Roof Ribbon-Cutting

3:00 PM

*Bronx Borough
President Rubén Díaz presiding*

View from AEA's new green roof with solar array
